## MAIL BID

### F.C.C. BOYD COLLECTION OF LOTTERY TICKETS

NASCA is pleased to offer an extraordinary group of lottery tickets ranging from 1744-1863. We have presented them in two major groupings - a public offering of the earlier items issued up to 1790, and this mail bid offering issued through the Civil War.

Though lotteries have only recently regained acceptance as a method of public fund raising, they were popular at a very early period in American history, ante-dating the Revolution. Thomas Jefferson had been an early opponent of lottery schemes (until his own financial difficulties necessitated a change of view!), but it was not until the 1820's and 1830's that serious opposition to lotteries developed. The famous Lousiana Lotteries of the 1890's and those of the related states were closed down by the expedient of denying them the services of the U.S. Post Office.

Before the moralists turned their attention to suppressing gambling, lotteries, as our extensive offering demonstrates, raised money for an extensive range of uses. Roads, bridges, canals, churches and charitable purposes were promoted and financed by voluntary means and not by the use of tax dollars which would either have been inappropriate or inexpedient.

Lotteries appeared in various forms and worked in ways that would be almost unimaginable today. Ticket prices were relatively high, being anywhere from $1 to $10 at a time when per capita income was less than $300. A $10 ticket in 1800 would cost an exorbitant $500 in terms of today's dollars. Consequently, tickets were sold at so much down with the balance due in 90 days or less after the drawing.

Lottery managers took the view that almost everyone should have a reasonable chance of winning something. Almost every ticket would win a prize, but a deduction of 12 1/2 to 20% would be taken. Added profits resulted from winning tickets not turned in. In other cases no deductions were taken, but the prizes would be paid to less than half of the purchasers, the winners getting a bit more than they paid. The average payouts (80-871/2%) far exceeded today's modern lottery's payouts.

We have estimated these lots based on past public auction results and our own best judgement, using price lists only as a guide to relative rarity. Lottery tickets have been avidly collected by a few specialists for years, but it is only recently that this area has begun to receive the public attention it so richly deserves. We believe that this extensive offering will stimulate interest further, leading to more realistic pricing and greater public awareness of these highly collectible reminders of our fascinating fiscal past.

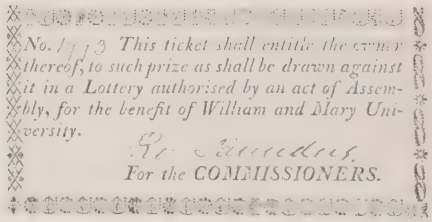
4583 **Richmond.** JEFFERSON LOTTERY. April 1826. Full ticket. No. 1680. Wm. Grattan, ptr. Rd, gr, bk. **VF. (Photo)** **($100-200)**

As is well known, Thomas Jefferson (1743-1826) 3rd President of the U.S, writer of the Declaration of Independence etc. had out-lived his estate and was heavily in debt towards the end of his long life. In the winter of 1825-6, Jefferson hit upon the idea to conduct a sale by lottery of his unsaleable lands. Jefferson's grandson, Jeff Randolph, went to conduct the delicate negotiations to get a lottery through the legislature at a time when Jefferson's friends were resisting such lotteries as speculative and immoral. There was a hot fight in the legislature and Jefferson's friends had to make concessions. On February 21, 1826 the bill passed with John Brockenborough, the Richmond Banker who built the White House of the CSA, Philip N. Nicholas and Richard Anderson (1750-1826) Revolutionary soldier etc. as managers. The lottery never really got off the ground, Jefferson's death in 1826 cooling interest in the idea. About $7,500 was contributed by friends, so the whole exercise was not for nothing.



No. 1993 This ticket shall entitle the owner
thereof, to such prize as shall be drawn against
it in a Lottery authorized by an act of Assem-
bly, for the benefit of William and Mary Uni-
versity.
For the COMMISSIONERS.

4674 **The Collection of Territorial and State Seals of Governor William Larrabee of Iowa. 1884-1893.** **($10-25)**
Governor William Larrabee (1832-1912) governor (1886-90) evidently decided to get as complete a collection of state official autographs and seals as he could. He had special forms made up (why he chose the Private Secretary and not the Lt. Governor, Treasurer etc. is unknown) and sent them out to his colleagues of the era. When there were changes, he sought the autographs of the new officials. Evidently his invocation of professional courtesy proved highly successful.
